

# KENNEDY SPACE CENTER

Dave Page - Delaware North Company

A LEARFIELD COMPANY

## PRODUCT INFORMATION:

Screen Size: (2) 14'H x 25' W

Product: GoVision GV10

Location: Mounted on Mobile Trailers

## THE GOVISION SOLUTION:

The Delaware North Corporation takes great pride in operating the Visitor Complex providing hospitality services for Kennedy Space Center. From operating the Kennedy Space Center Bus Tour to serving lunch at the Moon Rock Cafe, Delaware North's goal is to provide stewardship and hospitality in special places dedicated to creating memorable guest experiences as unique as the destination.

Few events on Planet Earth are as spectacular as a rocket launch from Kennedy Space Center. And now, launch crowds have a close-up look at the rockets as they thunder off the pad and streak into the heavens thanks to two new state-of-the-art video screens designed and custom-built by GoVision specifically for the Center. The mobile screens will be moved between all of the viewing platforms across Kennedy Space Center to provide the best possible viewing experience for the assembled crowds.

## CLIENT QUOTE:

*"We do a lot of cool events every year, but nothing is quite as exhilarating - and truly awe-inspiring - as a space launch! It's an honor to be selected for this important role at the Kennedy Space Center, and we can't wait to broadcast our first launch later this year."*

- Kevin Faciane, Executive Vice President, GoVision
